

PGFPlot-A simple tutorial*

Son To

June 13th, 2017

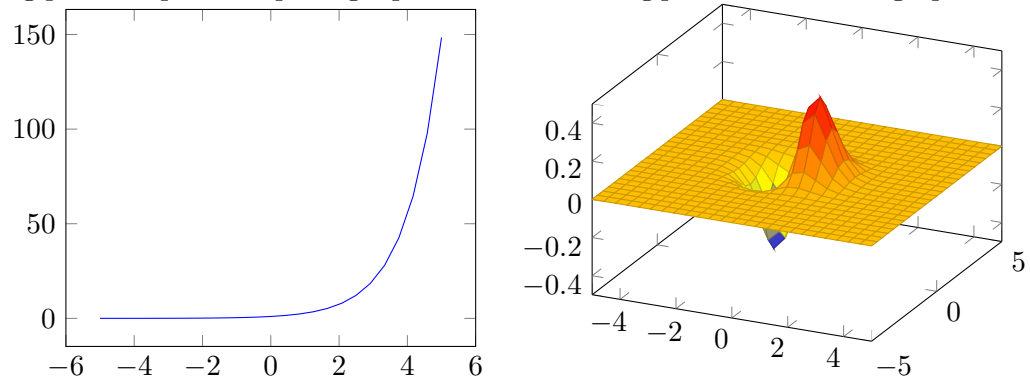

Contents

I. The Basic	2
II. 2D Plot.....	3
III. Plotting from data.....	4

*This tutorial is taken from [this link](#) with some modifications for personal pleasure!

I The Basic

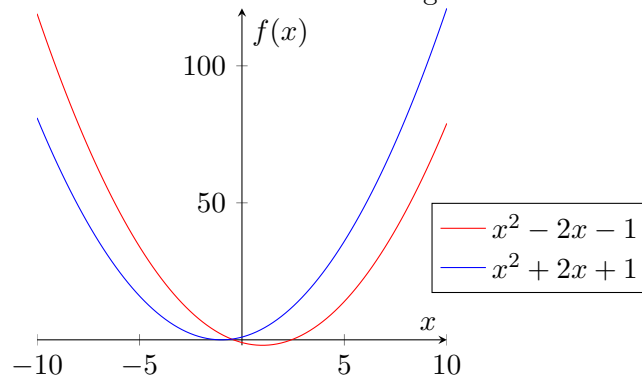

Pgfplots is a powerful package specialized in creating powerful scientific graphs.

We now get to some more details on 2D plot.

II 2D Plot

What the heck...Let's do some damage!

Come on man!!!! Let's make some plots from data.

III Plotting from data
